New Stylish Products Launched by Oregon Scientific at CAMEX 2017 in Salt Lake City

(Lake Oswego, OR, February 27, 2017) – Leading consumer electronic products enterprise, *Oregon Scientific*, is exhibiting a wide range of new and internationally-acclaimed products at *Campus Market Expo (CAMEX)*, which runs from March 5-7 2017 at the Salt Palace Convention Center (Booth #3252 in the Technology Pavilion).

Targeting trendy tech-savvy customers, the new products include the state of the art Electric Skateboards and Bikes, ground-breaking and innovative SmartGlobe with 3D Augmented Reality, revolutionary Smart Luggage that won't get lost, as well as hallmark Time, Weather, and Wellness devices. All of which are distinctively designed with modern aesthetics and guaranteed quality.

Oregon Scientific is always on the cutting edge of technologies, enabling us to swiftly respond to market trends. Our latest products reaffirm such abilities, incorporating contemporary creative designs with state of the art manufacturing, making them highly valued by knowledgeable customers. The Time & Weather series offers a perfect combination of exquisite design and practicality. The Electronic Learning Products and E-mobility series embrace innovation with advanced aesthetics and capabilities. The Wellness series keeps healthy living and wellbeing in mind, bringing people harmony and a stress-free lifestyle.

E-Mobility Division

The NEW Huger E-Bike Model- X is built for the ultimate adrenaline rush with its sleek carbon-fiber frame and full throttle performance at your fingertips! This boosted electric bike extends your journey by allowing you to ride with greater ease, thanks to its powerful battery. Its lighting and turning indication system provide additional safety and protection. If that wasn't enough, the real-time video recording feature allows you to share your exciting rides with friends.

The **NEW Huger E-Skateboard** provides an amazing riding experience with smooth braking, powerful electric motors, and simple wireless control. This technologically advanced skateboard also features an extended range battery pack, water-resistant electronics, and advanced connectivity in addition to everything you love about traditional skateboards like its loaded bamboo deck. It's backed by a high torque drivetrain, and an industry leading consumer report.

The Huger E-Skateboard's leading battery technology is now available in two options. The standard battery, with 99 watt-hours for 6-7 miles of range, is fully certified for passenger airliner travel when portability is at a premium. The extended battery, with 199Wh for 12-14 miles of range is perfect for longer commutes and epic rides. Batteries are also now user replaceable, allowing you to swap packs in minutes.

The **NEW line of Smart Luggage** gives you the peace of mind by tracking your luggage's location if it gets lost. The proximity sensor will alert you when your Smart Luggage arrives at the carousel. Additional features include: built-in charger, convenient collapsible design, apps, laptop foldable desk, and quick access tray.

Smart Learning Products Division

Discover an amazing world of learning with the **SG268R SmartGlobe Adventure with Augmented Reality!** Our new globe comes with incredibly realistic interactive Augmented Reality effects that enhance the 3D user experience when used with our exclusive app. With 19 Interactive activities, children can learn about animals and dinosaurs from around the world, facts about 250 countries and popular landmarks, the solar system, and more! With a Bluetooth® Low Energy wireless talking Smart Pen, this high tech educational toy wows users with fascinating knowledge and dozens of fun interactive games and challenges, and the ability to record notes. This Smart Globe provides bilingual activities (19 native + 6 foreign languages), 45 mins of recorded educational content, a local map at the base of the globe, and built-in 4MB memory. Online updating capabilities keeps content current. Designed for ages 5+. Powered by 2 x AAA batteries on Pen.

Connected Home: Time and Weather Division

Personal Station, BAR208S

Multi-Zone Station, RAR502S

Pro Color Station, WMA86NS

The Weather Station Range consists of convenient and compact stand-alone personal units, multi-zone monitoring systems for more comfortable living, and state of the art professional weather stations. Oregon Scientific weather stations are like having your own personal weatherman, so you will always know what to expect when you step out the door. Our newly redesigned models come with modern, vivid color LCD screens.

Radio Controlled Alarm Clock with LCD Screen, RM511A

Travel Smart Clock with Sleep sounds & Bluetooth music, CP100

PROJI Projection Clock with Weather, RM338PA

PRYSMA Atomic Projection Clock with Weather Forecast, BAR223PN

The Time Range includes convenient Projection and Travel Clocks. The PRYSMA and PROJI Projection clocks come in a variety of stylish colors to compliment any décor. Their angle adjustable projection arms offer a unique way to read time by casting soft glowing red numbers on a wall, ceiling, or just about any surface.

The Travel Smart Clock is the perfect compact and portable travel companion. With a built-in wireless Bluetooth speaker, it connects with your smart device, so you can enjoy your personal music anytime and anywhere. The LCD screen clearly displays the current time and alarm status, with the time automatically synced you're your mobile device there is no need to manually set time. The alarm is set directly from the app where you can adjust set the volume and wake-up tune. The RM511A Radio Controlled Alarm Clock is a great value with all its features and portability. This handy alarm clock is easy to use and perfect for travelling.

The time is radio-controlled which is precise to the second and adjusts automatically to time changes. You will never have to set the time again. The LCD screen displays the current time, date and indoor temperature.

Stay truly connected with the NEW CIR100 Smart Connected Clock with Internet Radio. With Wi-Fi and Bluetooth connectivity, you can access Internet radio stations and apps, including iHeart Radio, Spotify, and Tidal, as well as listen to music already downloaded in the library in your phone with crystal clear sound quality. Our dedicated mobile app supports instant text and voice message playback to keep you and your family connected while at home. The smart display shows the detail information including radio, music, weather forecast and text messages from our app. The CIR100 conveniently synchronizes the clock automatically. Additionally, the CIR100 can be used for conference calls and even as a multiroom speaker system (if you have more than 1 unit).

Wellness Division

The Aroma Diffuser range uses safe and quiet ultrasonic technology to diffuse pleasant scents by adding the essential oils of your choice. Immerse your senses in luxury and leisure, and let your stress melt away.

At a touch, AuraBreeze surrounds you with gentle aromatic mist to ease away the stress of the day, accompanied by the soft shifting hues of 6-color mood lighting and the soothing sounds of nature. This multi-sensory stimulation creates a relaxing and therapeutic ambiance, while AuraBreeze's sleek high-gloss shape and minimalist style makes it an elegant accent even when not in use. A digital time display is included on the top of the unit.
