PG. 2

Capital projects specialist – Story about the area of expertise in capital projects.

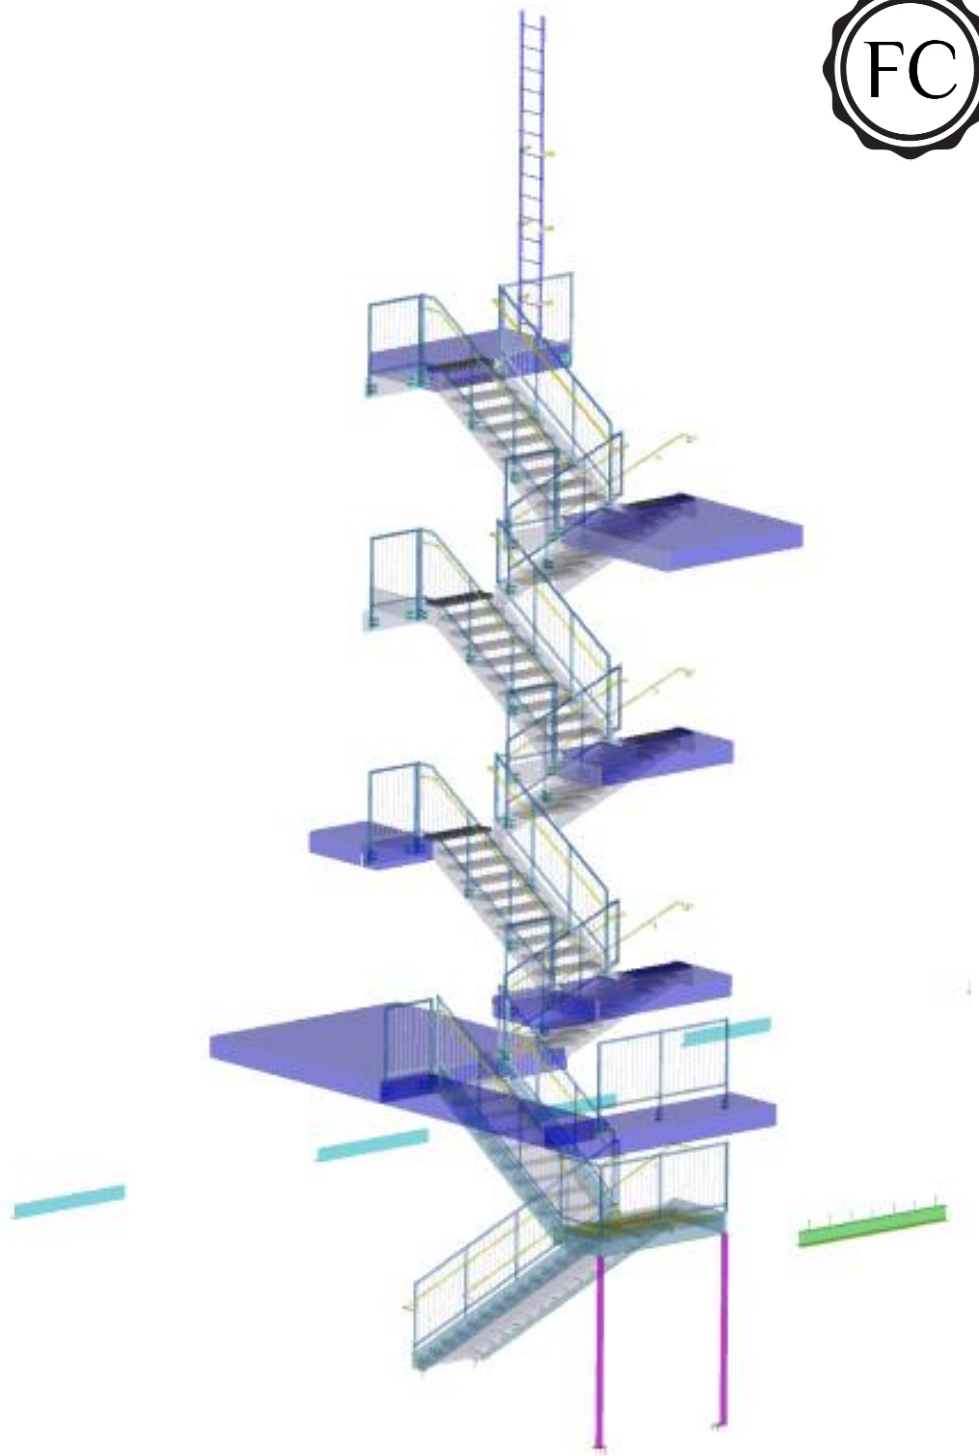

PG. 3

Value creation through our smart services

It takes two flints to
make a fire.

STRATEGIC PARTNERSHIP

We started taking beyond our association with customers as their strategic partners to gain sustainability and leverage on their long-term goals. With is type of vertical alignment with our customers (Fabricators / General Contractors) we review our short-term plans to strategies for the long-term goals. As a result of constant meticulous effort, we learnt that strategic partnership is a great response with which allows us to be positioned for the market uncertainties and attain competitive leverage.

Capital projects specialist.

CAPITAL PROJECTS SPECIALIST

Capital projects have special needs for delivery and execution. It requires multi-discipline project co-ordination; interface reviews and piping & electrical clash checking are key areas of pipe rack structures. Extraordinary team abilities developed through trainings and sessions with industry experts.

Our engineers and designers have on-site experience which helped them to produce quality deliverables.

Our team have solid experience in oil and gas mega projects. Pipe racks, Technological Structures, Shelters, Crossovers, Circular platforms, etc.

Rich experience in detailing of different types of power plant projects include naphtha, natural gas, pet coke, biomass, industrial waste gases, etc.

Looking at the upcoming market needs we are looking forward in our training sessions to including new emerging market needs of electric vehicle infrastructure and solar power infrastructure as well.

Knowledge sharing with our strategic partners is high on our agenda, by that the path forward to get the competitiveness shall be obtained. Hence, conduct as well as participate in webinars to update and encourage in newer market trends and technologies.

VALUE CREATION THROUGH SMART SERVICES

“It is the **culture** that
we focus to **create**
value throughout”

One thing that sets us apart is that we work with you as a supporting partner rather than an outsourced detailing agency. Our team invests sincere efforts in challenging, changing, and pushing boundaries to create trust that empowers and delights your customers.

We produce digital smart 3d model and drawings that create a positive impact.

If you have a vision to make a difference in the world, then we have a way to get you there.

There are extensive range of services we provide to fabricators and general contractors.
