

MAM FABRICA DE CUTELARIAS FILMAM Lda is a cutlery company from Portugal, working since 1870 with international scope and one of the oldest knives and cutlery manufacturers in the world. MAM brands letters means – *Manuel Antonio Martins*, he was the establisher of the company. It's a family business that passed from generation to generation. Today we have already 5th generation of MAM knives makers.

MAM FILMAM Lda guarantees a top quality product and it gives 10 years guarantee. All materials are high quality certificated and specially tested. We use the best German stainless steel AISI 420 with VG10 treatment. It is a stainless steel that is specially made for our company with molybdenum, vanadium, siliceous and carbon. Only with all these ingredients together and with a special temper we have extremely strong and flexible knives blades with 57-59-degree ROC.
