

**Take Your Best Shot...  
With Sorbothane® Grip**

**Introducing GOD'A GRIP - The World's Only  
Self-Customizing Rifle & Shotgun Grip**

The innovative God'A Grip is designed to provide a custom fit for any individual's hand and style. Made of Sorbothane, this universal grip enhances comfort and increases reliability. The molded finger groove grip allows for consistent hand placement for more accurate shots.

Featuring a special 3M adhesive God'A Grip will adhere to any wood or synthetic stock without harming the finish. With four models to choose from, there is a God'A Grip to fit most shotguns, rifles, crossbows and pistols.

Made and field tested by hunters - for hunters. God'A Grip, made of Sorbothane, will retain its comfort feel in winter cold or summer heat.

**Sorbothane®** is recognized worldwide as the ultimate material for attenuating shock and isolating vibration. No other material can dissipate energy as effectively. Sorbothane® is a proprietary visco-elastic solid that "flows" like a liquid under load while retaining excellent

memory. Unique applications call for unique solutions. Our engineers are ready to help design the ideal damper or isolator for individual product objectives.

- **RAPID PROTOTYPING**
- **LOW-COST TOOLING**
- **FAST TURN AROUND**
