Brands and Private Label production

100% of the production is made with and for the most important Outdoor Brands as well as with Private Labels for the largest sport and outdoor distribution chains. Mondeox Spa offers customers total service from concept to completion, with the development of the project and shoe design, through production up to the delivery of the finished products where all accessories such as hangtags and customized shoeboxes are included.

We produce for your Brand

Since 1993 Mondeox Spa offers solid know-how and high industrial potential, producing for the most well known European Brands. Mondeox Spa provides a unique customized service based on each client's specific needs and requests.

Wide Range of Footwear

Thanks to a know-how developed during 30 years of experience in its field and to the use of a highly skilled labour, Mondeox Spa creates a wide range of footwear, according to qualitative customer requests.

From military to hunting, including all hiking branches and also lifestyle products, Mondeox Spa can provide you with the best service from planning to end product process and guarantee the highest quality in terms of delivery times and logistic service.

Best technology partners

For its products MondeoX Spa uses the most advanced and influential technologies on the market. These combined with a skilled manufacturing process, guarantee quality products on every footwear category.

Vibram® is the world leader in high performance rubber soles. Synonymous with quality, performance, safety, innovation and design. Vibram® soles, created with a desire to increase safety and protection levels, are the result of a constant commitment to research and development. Vibram® products are designed using only the latest designs and the best compounds for its specific use. New soles are always produced with three objectives: to guarantee the best performance, the maximum level of comfort and quality over time. These objectives are realized by the stringent tests that are executed in the laboratory and in the field by the Vibram® Tester Team.

GORE-TEX®

GORE-TEX® products are durably waterproof and windproof combined with optimized breathability. The science and research that has gone into the development of GORE-TEX® fabrics over the years is extraordinary. The fabrics they offer provide protection and comfort for a wide range of activities and weather conditions. GORE-TEX® allows your feet to breathe and optimized climate comfort for warmer conditions and during higher activity levels – durable waterproof protection.

Ortholite®

ORTHOLITE® The most innovative insole brand. The cushioning and fit of the Ortholite® insoles never change inside the shoe, providing maximum comfort. Ortholite® open-cell PU foam is very breathable and keeps the foot cooler. This unique structure creates a moisture management system, helping to move moisture away from the foot to provide a cooler, drier, healthier shoe environment. Ortholite® insoles are lightweight and machine washable, coming out like new every time while maintaining all of their performance benefits. A patented salt-based antimicrobial is added to all Ortholite® foams for excellent moisture management properties, the antimicrobial inhibits the buildup of the bacterial fungi associated with the cause of odor.
