Special Mention!

Vitrifrigo is proud to announce that the new DRW180A has just won the Special Mention prize at the DAME AWARD 2018 presentation! We invested in the idea that the boat owner must have the power to get a wider and more customized experience with the refrigerator on board. The DRW180A is our all-in-one solution to make it possible! This was our first time entering the DAME AWARD competition and we couldn't expect such a great outcome. What a crazy way to start the Metstrade 2018! Don't miss the chance to see the new DRW180A at the Vitrifrigo stand 12.021!
