BMPRO ANNOUNCES A NEW RELATIONSHIP WITH JAYCO USA

Melbourne, Australia - Today, Australia's leading manufacturer of power management systems for the RV industry, [BMPRO](#), announces its new relationship with Jayco USA.

BMPRO has enjoyed a long-standing partnership with Jayco Australia and other caravanning companies such as New Age and Concept Caravans. For over a decade, BMPRO has brought freedom to Australian RV users with its management system for effortless control of RV features. BMPRO is excited to bring its expertise into the US with Jayco USA and is delighted with the partnership.

The partnership will ensure new and exciting developments between Jayco and BMPRO. With over fifty years manufacturing experience of OEM power and switching solution, BMPRO has the expertise and customer service to provide the US RV market with a product relevant for US requirements. BMPRO's Australian software development team has more than doubled to embrace the project's protocols, including 3D prototyping, advanced Bluetooth capabilities and cloud-based applications.

New offices and warehousing in Elkhart, Indiana have been established by BMPRO along with a new US-based BMPRO sales and support team in the heart of RV country underpins the BMPRO key philosophy of service, production and customer satisfaction.

BMPRO identified over five years ago the opportunity to develop a digital system to enhance the experience of the RV user. The largest manufacturer of control and power management systems in the Australian RV market, BMPRO now has one of the world's most advanced systems – its flexibility and scalability means it is easy to add features and sensors as the RV industry evolves, or the user decides to expand their system.

The RVMaster is a system that allows RV users to control and monitor all features of the RV via an onboard console or an app accessed by the user's own phone. The RVMaster monitors the temperatures, propane levels, tire pressure, water tanks, as well as controlling the lighting, doors, windows, slide-outs and awnings.

CEO, Louise Bayliss, says, "The opportunity to strategically partner BMPRO with Jayco USA is exciting and feels somewhat fitting for us given our long and successful association with Jayco Australia. With BMPRO entering the US market we are now in a stronger position to enhance and build on the development and supply of our RV control and monitoring system. The RVMaster is flexible in its capabilities and is customizable for each partner, which means that in such a competitive market it gives the manufacturers the ability to differentiate themselves. Our focus remains on our customers, collaborating deeply with them to ensure those who partner with BMPRO are kept at front of the market."
