

Bring your youth to this educational event!

Explore the wonderful world of robotics with our nonprofit organization, Robotics for Youth. Become a part of the USA Science Festival and enjoy the various hands-on activities that we have to offer. We are going to display various new educational technologies that are aimed at inspiring Science, Technology, Engineering, and Mathematics (STEM) in the minds of young scientists.

These include...

- ◆ *MBot*
- ◆ *EV3*
- ◆ *OzoBot*
- ◆ *Little Bits*
- ◆ *Arduino*
- ◆ *CAD*
- ◆ *Raspberry Pi*

We are tailoring our events to serve different age groups and if you are interested in experiencing more of what our organization has to offer, visit us at : www.roboticsforyouth.org
